SEEDLINGS

Fall 1947

NORDSTROM NURSERIES.
GALLITZIN, PENNA.

PITCH PINE. *Pinus rigida*. A tree to 75 feet with short stout branches. Dark green rigid needles 4 to 5 inches long. Very hardy and succeeds even in poor, dry and rocky soil. Ideal for quick windbreaks and as a cover for barren hillsides. Rugged and picturesque when old.

6-12 inch Seedlings. \$2.00 per 100; \$15.00 per 1000.

BANKS PINE. *Pinus banksiana*. Short, yellow green needles on tough branches that hold well to the ground even after years old. Very fast grower, ideal for windbreaks as well as cover for poor land. In average soil will grow 40 feet or more. When young make good Christmas trees in shortest possible time. Should be sheared when young.

10-15 inch Seedlings. \$3.00 per 100; \$20.00 per 1000

PONDEROSA PINE. Very long dark green needles 5 to 8 inches long. Heavy drooping branches. Grows to 100 feet or more. Prefers a well drained soil from clay to sand. A highly ornamental tree when young and much used for Christmas trees as well as screens and specimens. After the first few years average growth is about 16 inches each year.

4-6 inch Seedlings. \$4.00 per 100; \$20.00 per 1000.

WHY NOT PLANT SEEDLINGS IN A BED FALL
HAVE THEM READY FOR PERMANENT Setting as you need them.
A 4x25 ft. bed will accomodate 500 plants. Full Directions with order.
